It's that time of year again! Please drive slowly and watch your yard for poisonous snakes!

Red touch yellow- kill a fellow      Coral Snake

## **Wimberley History, Trivia, Fun Facts**

The Deer Creek Oasis Project is complete! The project started when the Deer Creek Nursing and Rehab director took some residents to visit Alexis Point. They saw how beautiful it was, and they came home to their dull, weedy, overgrown courtyard. Many of the residents are bed ridden and will remain at Deer Creek until they pass on. The idea was to give them something beautiful to see every day. Others are mobile and needed a place to go outside that was safe, peaceful, and beautiful. Don Minnick from [wimberleyarts.org](http://wimberleyarts.org) was contacted, and the project began.

**A flower pot designed by a local artist.**

Outside each window is a new bird feeder that is filled by a volunteer 2 times a week. KWB donated 11 water tanks to collect rainwater to fill a newly renovated koi pond and for landscape watering. Local residents donated time and money to build accessible pathways, a potting bench, a pergola, gardens, and seating. Many local organizations and residents donated native plants and trees. Area artists donated sculptures, created hand-made bird houses, and painted the water tanks with beautiful designs and murals. (There are plaques near each element with donor information.)

**This water tank was painted by Lisa Motley.**

On June 12th, the courtyard was officially opened. Deer Creek residents, staff, artists, and area residents attended the ceremony. The courtyard can only be accessed by going through the building. If you would like to visit and see how much joy a beautiful courtyard brings to Wimberley, stop by the front desk and ask for directions. The residents love company, and they have so much life to share.

The new pergola was donated by a Wimberley family.
